

Birds, Cats, Space Views from Liberia

The west African republic of Liberia closed 2014 and opened 2015 with a wide array of new issues.

Among those, we display two souvenir sheets depicting African Birds of Prey. Shown in the upper left sheet are the Jackal Buzzard, Spotted Eagle Owl and Cape Vulture. The Martial Eagle sheetlet is featured at the far left.

Lions are pictured on the Wild Cats of Africa sheetlet above, while the caracal—a medium sized wild cat about three feet long—is seen to the left.

The "Visions of Earth from Space" sheetlet above includes views of a volcano, ice lake, the Dead Sea—and in the bottom center stamp a view of Paris with the Eiffel Tower at the center.

For details on these and other issues of Liberia or its other client nations, please go to the website of Inter-Governmental Philatelic Corp., www.igpc.com.
